

**Guide to supplementary material for:
“Does Competition Among Public Schools Benefit Students and Taxpayers: A
Comment on Hoxby (2000),” by Jesse Rothstein**

A great deal of supplementary material is available for this paper. The AER online archive contains programs and public-use data. The author has set up a web site that contains additional material. This includes:

- 1) Detailed appendices containing full coefficient lists for the regressions in the comment, alternative specifications, and documentation of the sample and variable construction.
- 2) An earlier version of the paper
- 3) A rejoinder to Hoxby’s Reply

The web site can be accessed at <http://www.princeton.edu/~jrothst/hoxby/index.html>.
