This research did not receive any financial support. In addition, this research did not receive in-kind support from any "interested" party. I have not held any paid or unpaid positions as officer, director, or board member of "relevant" non-profit organizations or profit-making entities, where "relevant" organization here refers to one whose policy positions, goals, or financial interests relate to the article. No party had the right to review the paper prior to its circulation. To the best of my knowledge, there are no relevant potential conflicts of interest to disclose.
