

Disclosure statement by Erzo F.P. Luttmer for the submission "Would People Behave Differently If They Better Understood Social Security? Evidence From a Field Experiment"

The research in this paper was supported by the U.S. Social Security Administration through grant #10-M-98363-1-01 to the National Bureau of Economic Research as part of the SSA Retirement Research Consortium. Other than the support mentioned above, I have no relevant or material financial interests that relate to the research described in this paper.

We obtained IRB approval for this project from the NBER's Institutional Review Board (FWA #00003692, IRB Ref#08-001 and IRB Ref#08-013).

A handwritten signature in black ink, appearing to read 'Erzo F.P. Luttmer', with a long horizontal line extending from the end of the signature.

Erzo F.P. Luttmer
