Manuscript Submission: Assessing Financial Education: Promising Evidence From Boot Camp

Date: 20 August 2015

I received no financial support for the completion of this research.

In the past three years I received compensation in excess of $10,000 from the Financial Industry Regulatory Authority (FINRA) Investor Education Foundation to complete a research paper on the changing financial conditions of military members. The FINRA research is unrelated to my *AEJ:EP* manuscript and research on financial education.

The United States Military Academy Office of Institutional Research reviewed the protocol for this research and determined that it met the requirements or exempt status. The project control number is 15-37 Skimmyhorn.

The opinions expressed in this research reflect the personal views of the author and not those of the United States Army or the Department of Defense.
