

Shaun Hargreaves Heap and Daniel John Zizzo, The Value of Groups

Questionnaires

‘Understanding’ questionnaires

A treatment-specific questionnaire was given at the beginning for the only purpose of ensuring that subjects had understood the experimental instructions. This questionnaire was provided on paper.

Final questionnaire

A short questionnaire was given at the end of the experiment. It was not incentivized and is not considered in the paper, but is provided in this file for completeness. This questionnaire was computerized.

B Treatment Questionnaire

Please read the instructions before answering this questionnaire.

1. “If the First Mover gives 8 points, the Second Mover can return any amount between 0 and 32 points”. Is this true?

Yes _____ No _____

2. “If the First Mover gives 36 points, the Second Mover can return any amount between 0 and 108 points”. Is this true?

Yes _____ No _____

Please raise your hand and wait for the experimenter to check your answers before starting to take experimental decisions.

SF Treatment Questionnaire

Please read the instructions before answering this questionnaire.

1. "If the First Mover gives 8 points, the Second Mover can return any amount between 0 and 32 points". Is this true?

Yes _____ No _____

2. "If the First Mover gives 36 points, the Second Mover can return any amount between 0 and 108 points". Is this true?

Yes _____ No _____

3. "If I am a Blue participant, I can choose whether to remain a Blue participant for the whole experiment". Is this true?

Yes _____ No _____

4. "Each group contains the same participants throughout the experiment". Is this true?

Yes _____ No _____

5. "Each group contains the same *number of* participants throughout the experiment". Is this true?

Yes _____ No _____

6. "If I am in the NotBlue group, from Stage 2 onwards I get matched with other NotBlue members twice as many times as I get matched with Blue members". Do you agree?

Yes _____ No _____

Please raise your hand and wait for the experimenter to check your answers before starting to take experimental decisions.

C, SM and SG Treatments Questionnaires

Please read the instructions before answering this questionnaire.

1. "If the First Mover gives 8 points, the Second Mover can return any amount between 0 and 32 points". Is this true?

Yes _____ No _____

2. "If the First Mover gives 36 points, the Second Mover can return any amount between 0 and 108 points". Is this true?

Yes _____ No _____

3. "If I am a Blue participant, I can choose whether to remain a Blue participant for the whole experiment". Is this true?

Yes _____ No _____

4. "Each group contains the same participants throughout the experiment". Is this true?

Yes _____ No _____

5. "Each group contains the same *number of* participants throughout the experiment". Is this true?

Yes _____ No _____

6. "If I am in the Red group, from Stage 2 onwards I get matched with other Red members twice as many times as I get matched with Blue members". Do you agree?

Yes _____ No _____

Please raise your hand and wait for the experimenter to check your answers before starting to take experimental decisions.

SI Treatment Questionnaire

Please read the instructions before answering this questionnaire.

1. "If the First Mover gives 8 points, it is possible that this amount gets multiplied by 4; the Second Mover can then return any amount between 0 and 32 points". Is this true for Stage 1?

Yes _____ No _____

2. "If the First Mover gives 36 points, it is possible that this amount gets multiplied by 4; the Second Mover can then return any amount between 0 and 144 points". Is this true for Stage 3?

Yes _____ No _____

3. "If I am a Blue participant, I can choose whether to remain a Blue participant for the whole experiment". Is this true?

Yes _____ No _____

4. "Each group contains the same participants throughout the experiment". Is this true?

Yes _____ No _____

5. "Each group contains the same *number of* participants throughout the experiment". Is this true?

Yes _____ No _____

6. "If I am in the Red group, from Stage 2 onwards I get matched with other Red members twice as many times as I get matched with Blue members". Do you agree?

Yes _____ No _____

Please raise your hand and wait for the experimenter to check your answers before starting to take experimental decisions.

Final Questionnaire

For each question a 7 point Likert scale (from ‘Strongly disagree’ to ‘Strongly agree’) was provided.

Groups Treatments

1. During the experiment I felt the following emotions:
 - a. Anger
 - b. Envy
 - c. Fear
 - d. Guilt
 - e. Joy
2. I felt that I and the other members of my group were a team and we had to coordinate and cooperate.
3. I felt that I and the non members of my group were a team and we had to coordinate and cooperate.
4. Switching groups felt good.
5. Switching groups felt bad.

If you have any comments on the experiment, please email them to eco.experiments@uea.ac.uk

B Treatment

During the experiment I felt the following emotions:

- f. Anger
- g. Envy
- h. Fear
- i. Guilt
- j. Joy

If you have any comments on the experiment, please email them to eco.experiments@uea.ac.uk
