December 15, 2012

To Whom it May Concern,

I received support for my research on "Do Housing Prices Reflect Environmental Health Risks? Evidence from More than 1600 Toxic Plant Openings and Closings," from the John D. and Catherine T. MacArthur Foundation and from the Environmental Protection Agency (RE: 83479301-01). As part of a diversified portfolio, I hold more than $10,000 worth of stock in companies that might be affected by regulation under the Clean Air Act.

Sincerely,

Janet Currie
